BRANCHING MINDS

The BRM Secret Menu
Bite-Sized MTSS Features That Take Work *Off* Your Plate!

We asked our customers to share lesser-known features of Branching Minds that make their lives easier, and **they served up a host of fan-favorites!**

TRIPLE DOTS

"It's SO easy to edit everything in BRM with those three dots! From staff associations to tags to plans and progress monitors, it's always easy to fix something quickly or edit a mistake (and I make plenty)! Thank you BRM for making things so easy for our users!"

Denise Griffin, Coordinator of Student Support Services, Conroe ISD, TX

THE NOTES BOX

"Helps to keep track of the little details that might otherwise get lost in the shuffle."

Keri Davis-Weaver, School Psychologist Johnsburg School District 12, IL

EWI REPORT

"It allows me to quickly identify students who are at risk and implement support ASAP!"

Tandis Pourbastani, School Social Worker Leman Academy of Excellence, AZ

FILTERS

"Using the filter feature allows me to view and track the conferences I've completed with only my TEAM advisory students. Currently, this is my favorite feature."

Courtney Spreitzer, English Teacher Grant Community High School, IL

LIVE CHAT

"It is organized, easy to use and very extensive. I love that everything is in one place! Emily is so prompt and helpful!"

Nikki Romano, Interventionist Chicago Public Schools, IL

COPY/SELECT ALL

"Branching Minds is the tool that we needed to help our Tier 2 and Tier 3 students be successful! Every district needs it to close the achievement gap!"

Abraham Leal, Interventionist Garland ISD, TX

TO-DO LIST

"The "To-Do List" is my favorite because it's a great little reminder for updating student progress on those days that are crazy. It also keeps me accountable for making sure I'm implementing effective interventions."

Diane Chan, Interventionist Chicago Public Schools, IL

FAMILY COMMUNICATION LOG

"It's fast and easy to document all communication for everyone to see immediately!"

Julizara Kurtovic, MTSS Lead/Interventionist, Chicago Public Schools, IL

FORMS/MAIL-MERGE

"Being able to house required forms into BRM and having all staff be able to go to ONE place on the platform for forms they need is wonderful. This ensures consistency and helps us effectively communicate with our community (staff, parents, etc)."

Karina Flores, MTSS Specialist Waukegan Public Schools #60, IL

INSIGHT SURVEY

"Tells me exactly what I need to do to gather specific information, and then tells me how that affects the student."

Joanna Felsenstein, MTSS Lead/Interventionist Chicago Public Schools, IL

IMPLEMENTATION HEALTH REPORT

"This feature provides me with insight on where each of our schools are with overall user engagement, support plans, to-do's, and goals!"

Tiffany Studivant, District MTSS Specialist Clarke County School District, GA

GROUP PLANS

"Although it is a simple feature, it is a helpful one! I really like the way that I can create groups of students. For our population, it has helped me organize myself much better."

Jeannette Perez, School Counselor Chicago Public Schools (15), IL

GROUP PROGRESS GRAPH

"I especially love seeing the group graph where all students are on one graph together. It helps us to see if there is an outlier who is struggling amongst students all receiving the same intervention."

Angela Papa, School-Level MTSS Lead Chicago Public Schools, IL

NEW TIER AUTOMATION

"The new tier automation is such a great feature! It has saved so much time and stress when it came to tiering our kiddos. It helped to have one less thing to think about. Thank you."

Amy Castillo, Academic Coordinator South San Antonio ISD, TX
